

### ***Reasons for Math Workshop:***

- \*Student engagement
- \*Increase student achievement
- \*Meet the needs of all students
- \*Opportunities for observation, communication, and collaboration

### ***Reasons for Small Group Guided Instruction***

- \*Work may be differentiated in procedure, level of difficulty, or by work product
- \*Enhanced communication which builds competent math thinkers
- \*Encourages use of manipulative to increase student comprehension
  - \*Students stay focused
  - \*Incorrect understanding easily detected and corrected
- \*Cooperation among all levels of students is encouraged

*We will do this by:*

- \* Incorporating cooperative learning groups to enhance student engagement and student achievement
- \* Incorporating math journals to enhance students problem solving skills
- \* Integrate games and a variety of activities for various learning styles
- \* Develop a variety of ongoing assessments to target individual student needs
